

Licensed Child Care Facilities with Maximum Capacity 100 or Greater

Shapefile

Tags

education, administrative, child care

Summary

To add to the state data clearinghouse the Mississippi licensed child care facility point feature.

Description

Point locations of the Mississippi Licensed Child Care Facilities (with Maximum capacity 100 or greater) as derived from the Mississippi Department of Health 2014-2015 official principal roster. It also includes various attributes about the schools and administrations.

Various locational and administrative

Lineage ►

LINEAGE STATEMENT

This data was provided by the MS Department of Health as physical addresses in spreadsheet form. MARIS used the USDA NAIP 2014 1 meter imagery, Google Earth Streetview, and occasionally local contacts to locate the individual points. Each point was assigned a unique ID derived from the County FIPS Code and an integer based on sorted facilities by county in alphabetical order. That was linked to the spreadsheet to add the various attributes from MS DOH.

http://msdh.ms.gov/msdhsite/_static/30,332,183,438

PROCESS STEP ►

WHEN THE PROCESS OCCURRED 2015-06-19 00:00:00

DESCRIPTION

MARIS staff took the list of individual schools from the Mississippi Department of Health and used the 2014 1 m NAIP imagery from the USDA, Google Earth Streetview, and occasionally local contacts to locate the schools. A unique identifier consisting of the County FIPS Code and an integer based on sorted facilities by county in alphabetical order added to the point feature. This unique ID was used to relate the Excel spreadsheet provided by MS DOH with various attributes. The result was saved to a file geodatabase feature. The metadata was then entered and validated. Once validated, a shapefile of this feature was exported to be provided to the web site for distribution. http://msdh.ms.gov/msdhsite/_static/30,332,183,438.html
