

# MSDH\_PCH\_Facils17

## Shapefile

## Tags

personal care homes, assisted living facilities

## Summary

This shapefile contains personal care homes and assisted care facilities from the "Directory of Mississippi Health Facilities" January 2017 by the MS Department of Health. This shapefile was generated by MARIS staff in December of 2017 to be used along with the Nursing Homes shapefile in the LUCA Census update program. This shapefile should be used with the nursing home layer to create a complete look at those type of facilities.

\*\* NOTE In some cases there were duplicate listings from the Nursing homes and personal care homes MSDH Directory. If it had a different phone number and apparent different building, a site was added to this shapefile. If not, the nursing home facility was deemed to be one site including the facilities for assisted living - thus no NEW site was added to the PCH shapefile. \*\*\*\*

## Description

The Personal Care Homes / Assisted Care shapefile contains facilities that house elderly adults. This shapefile's attribution contains physical and demographic information for facilities in Mississippi. The purpose of this shapefile is to provide accurate locations for high concentrations of elderly adults in the event of a disaster. The attribution within this shapefile was populated via open source methodologies of authoritative sources.

\*\*\*\* NOTE December 2017, MARIS used the Mississippi State Department of Health Directory of Mississippi Health Facilities (January 2017) to find locations and attributes. Locations were verified using the 2016 USDA NAIP imagery.

MSDH included an attribute for Assisted Living with Value = "X" for site includeds assisted living facilities. MARIS added
