Summary

to provide the polygons for the first divisions of the PLSS Township
The data from the State of Mississippi was digitized from USGS quad sheets and provided by the State of Mississippi. Special Surveys and areas that were not part of the original public lands survey were originally included in the PLSS data set. These areas were reclassified as possible into more correct feature classes and standard naming and coding were added to the data set. Areas around water bodies need to be further verified. Data from the BLM was captured by USFS and BLM and computed using the BLM's GMM program. The data was then best fit to the State of Mississippi on the boundaries. Data from counties were used to update PLSS polygons and provide second division polygons where possible

Description

The PLSS First Division is commonly the section. This is the first set of divisions for a PLSS Township.

FIELD PLSSID ►

- * ALIAS PLSSID
- * DATA TYPE String
- * WIDTH 16
- * PRECISION 0
- * SCALE 0
- * FIELD DESCRIPTION

This is the unique identifier for the PLSS Township in which the first division is located. Concatenation of the principal meridian, township, range, and duplication code that form a unique identifier for the township.
