

Mississippi Private Schools 2017

Shapefile

Tags

education, schools, private, K-12

Summary

To add to state data clearinghouse the Mississippi private schools point features.

Description

Point locations of the Mississippi PrivateSchools as derived from privateschoolreview.com. It also includes various attributes about the schools and administrations. *** NOTE ***January 2017, MARIS staff reviewed the schools and locations to verify the data base was up to date,

LINEAGE STATEMENT

This data was gleaned from the web site privateschoolreview.com. Using the physical address, The FIPS/ID number used was based on this physical address and not the physical geography of the location. MARIS staff used the USDA NAIP 2014 1 meter imagery, Google Earth Street View, and occasionally local contacts to locate the individual points. Each point was assigned a unique ID derived from the School District

Code and the School code. That was linked to the spreadsheet to add the various attributes from the privateschoolreview.com web site.

PROCESS STEP ▶

WHEN THE PROCESS OCCURRED 2015-07-09 00:00:00

DESCRIPTION

MARIS staff took the list of individual schools from the privateschoolreview.com and used the 2014 1 m NAIP imagery from the USDA, Google Earth Street view, and occasionally local contacts to locate the schools. A unique identifier consisting of the school district code and the school code was added to the point feature. This unique ID was used to relate the Excel spreadsheet provided by the website with various attributes. The result was saved to a file geodatabase feature. The metadata was then entered and validated. Once validated, a shapefile of this feature was exported to be provided to the web site for distribution.

RATIONALE

This was the most complete collection of private school locations for Mississippi.
