

GIS Workshop

Introduction to QGIS*

**Free and Open-Source Geographic Information System*

January 30-31, 2019

Mississippi Department of Information Technology Services, Jackson

Expand your QGIS knowledge or translate your knowledge of other GIS software to use with this *Free and Open-Source Geographic Information System*. It's a great asset for institutions, organizations, and individuals. Anyone interested in geospatial technology is encouraged to attend.

Course overview:

Navigating the QGIS interface
Projections & Coordinate Systems
Working with Spatial Data
Using Symbology & Labels

Tables & Queries
Digitization
Geoprocessing
Map Composition

Open to all. Registration is \$25 or **FREE** for local, state and federal agency employees in Mississippi. (IHL and CC/JC employees and students not eligible for free registration.)

**To register, contact Randall McMillen
(662)325-4585 randall@gri.msstate.edu**

Conducted by the Geospatial Education and Outreach Project (GEO Project); a collaborative effort among the Geosystems Research Institute, the Mississippi State University Extension Service and the Mississippi Coordinating Council for Remote Sensing and Geographic Information Systems.
