## Mapping and GIS Data Collection Seminar

Introducing the brand new TDC150 and Microdrone mdLiDAR. This is a hands on seminar focused on the latest in Trimble and ESRI data collection as well as advanced data collection solutions with drones and mobile lidar.

Keynote speaker Michael Hughes, from Locality GIS, is an industry expert with a specialty working with water utilities. Michael will be speaking about work he's conducted within the industry as well as highlight the value of bringing high accuracy data into the ESRI platform.

### What:

3 hour seminar with  
**Ryan Poe, Mississippi MGIS Sales Rep, +**  
**Michael Hughes, Principal, Locality GIS**

### Industries who should attend:

- Rural Water
- Waste Water / Storm Water
- Environmental Consulting
- Electric
- Forestry
- Pipeline Mapping

### Where:

Helen Foster Auditorium  
219 N. Madison St.  
Tupelo, MS 38804

### When:

Friday, August 23, 2019  
9:30am - 12:30pm

### Contact:
